

# DESIGN AWARDS 2021

## MOST INNOVATIVE WINDOW SYSTEM

THE MOST INNOVATIVE WINDOW SYSTEM AWARD RECOGNISES PRODUCTS WHICH DISTINCTLY TAKE INTO ACCOUNT GROWING ISSUES THAT ARE PRESENT IN TODAY'S MARKET – SOLAR, THERMAL, NOISE, SECURITY AND ENVIRONMENTAL FACTORS

The AGWA Design Awards aim to:

- Increase the level of interest in windows, doors and glass products.
- Raise the awareness, profile and interest in AGWA members and differentiate them from others.
- Execute a consistent professional showcase for windows, doors and glass products, celebrating and recognising excellence.

A WINDOW SYSTEM IS A COMBINATION OF COMPONENTS MAKING UP A TOTAL WINDOW SYSTEM CREATING BENEFITS FOR THE CONSUMER.

**Note:** Components that are mechanisms such as locks, handles, rollers, fasteners, or a singular component of a total window system are to be entered in the Most Innovative Window System Award.

### ENTRY CONDITIONS

- Only AGWA members may apply.
- The window system must be on the Australian market and launched between January 2019 and July 2021.
- Maximum two (2) entries per category.
- Only one application will be accepted per email. (Do not include multiple entries on one email).

Completed submissions do not need to be professionally printed or bound.

### JUDGING CRITERIA

Judging will be based on the following criteria:

<b>40%</b>	Innovation: creativity and originality.
<b>20%</b>	Meeting a specific market need. For example: safety, security, acoustics, bushfire.
<b>10%</b>	Aesthetics: appropriateness to environments, cultures and lifestyles.
<b>10%</b>	Sustainability.
<b>10%</b>	Energy efficiency.
<b>10%</b>	Performance suitability for the site or location.

It is ultimately the judges' discretion as to whether an award will be granted for a particular category, particularly if there is a small number of entrants. As a general rule, first place will be awarded in each category. However, if there are a large number of entrants, other applicants may be awarded a special commendation such as highly commended.

Judges can decide to not grant an award for any category where no entrant reflects the criteria to a sufficient standard or no entrant reflects the objectives of the Most Innovative Window System Award, in that they celebrate excellence in workmanship in the window and glass industry.

## APPLICATIONS CLOSE: FRIDAY, 30 JULY 2021

# DESIGN AWARDS 2021

## MOST INNOVATIVE WINDOW SYSTEM

### UPLOAD INSTRUCTIONS

To prevent any loss in quality, all image files must be supplied in RGB format at a resolution of 300 dpi. A useful shorthand is a file size of at least 1MB. Files should be no larger than 10MB. Images from websites that have been “up-resed” artificially to 300 dpi will be unusable for promotional purposes.

We recommend that large files are submitted via a USB or CD. If this is not possible, please use a file transfer website [www.wetransfer.com](http://www.wetransfer.com).

Please Note: AGWA cannot accept emailed compressed files (.ZIP .RAR .7Z)

The Most Innovative Window System Award will be judged on the submission provided by the entrant.

### SUBMISSION

Send completed applications to:  
AGWA Marketing

Suite 6, 31 Redland Drive,  
Vermont, Victoria 3133

[stephanie.grigg@agwa.com.au](mailto:stephanie.grigg@agwa.com.au)

Send product sample to:

AGWA Design Awards 2021  
Suite 1, Level 1, Building 1,  
20 Bridge Street, Pymble  
New South Wales 2073

### APPLICATION REQUIREMENTS

The application requires the following information to be included:

#### 1. PRODUCT SAMPLES OR MEDIA

Samples of the product should be sent to the AGWA Sydney office.

Minimum five (5), maximum ten (10) photos or illustrations. If more than ten photos are submitted, ten will be picked at random. Accepted file formats: .JPEG .PNG .AI .EPS

A 3 minute video of the product may also be submitted. Footage over this time limit will not be viewed. Accepted file formats: .MP4

#### 2. FACTUAL DATA

Please provide factual data, preferably from an independent source, to support performance claims.

#### 3. PRODUCT EFFECTIVENESS

Highlight the key features and effectiveness of the window system. For example, how well does the window system meet the design brief?

Primary Contact	Position		
Company			
Address	Suburb	State	
Email	Tel	Fax	Mobile

### MEDIA

I confirm that visual representation of the product has been submitted

Sample	Photograph(s)	Video	Technical Drawing or Illustration
--------	---------------	-------	-----------------------------------

### SOCIAL MEDIA DETAILS

List the name(s) of your organisation's social media accounts to facilitate social media promotion of entries. Please include the account name(s) (e.g. @agwa.limited) and platform (e.g. Facebook, Instagram, Twitter, etc.).

### PRODUCT DETAILS

Product Name

Product description:

# DESIGN AWARDS 2021

## MOST INNOVATIVE WINDOW SYSTEM

Brief as given to the designer:

Summarise proof of success and/or market potential:

Do you have a patent or design registration for the product?  
Provide details (optional)

Yes

No

# DESIGN AWARDS 2021

## MOST INNOVATIVE WINDOW SYSTEM

Is the product currently being exported?

Yes

No

Provide details (optional)

Does the product replace goods that are currently being imported?

Yes

No

Provide details (optional)

Has your product been tested to Australian Standards?

Yes

No

Provide details (optional)

Describe product lifecycle and environmental considerations:

# DESIGN AWARDS 2021

## MOST INNOVATIVE WINDOW SYSTEM

Demonstrate any environmental impact of this product:

For example WERS rating, energy savings, building performance, ventilation, passive solar heat gain.

### CONSENT FOR USE OF IP

I authorise and consent to the collection, storage, use and disclosure by the AWA-AGGA Limited of any photos or information which comprise my submission for the AGWA 2021 Design Awards.

This may be inclusive of, but not exclusive to, the following examples:

- Available on the AGWA or other approved web sites, AGWA Facebook, LinkedIn and Instagram accounts for promotion.
- Available on signage or displays and on various forms of electronic media, such as eNews.
- Incorporated into AFTI training materials.
- Incorporated into printed and electronic journal publications to be distributed, such as Design Awards Magazine, BuiltView and other trade publications.
